LIKE RATS IN A TRAP.

Laborers Caught In a Burning Waterworks Crib Out In the Lake.

A DOZEN MEET A HORRIBLE FATE.

Five Were Roasted Alive and the Remainder Suffocated and Drowned-Distressing Disaster at Cleveland.

Cleveland, Aug. 14.-Fire at an early hour destroyed a temporary water works crib two miles out in the lake, resulting in the death of at least 10 men, while two others were probably fatally injured. In addition to a large number of workmen who were in the crib, 11 others were at work in the tunnel leading from it 200 feet below at the bottom of the lake. As air supply the men working in the tunnel many days. was cut off as a result of its destruction, it was at first supposed that these men had all perished. Subsethe tunnel were rescued after heroic work upon the part of their fellow workmen. It is said that two men are still in the tunnel, but those rescued state that one of these, Victor Kaufman of Canton, is dead.

Following is a list of dead and inburned to death. John Lee, broken back; O. Braddock, frightfully burned.

Fire and harbor tugs with rescuing parties on board reached the crib soon they arrived there, the structure was floating in the water shouting for help. Others were clinging to ropes which they had hitched or tied to the rafters, but the flames were burning the ropes away, while the men were standing and one by one they were

After an hour's hard work, the flames were diminished enough so that the firemen could climb up the charred steps and fight the fire from the interior. Then the horror of the calamity was first realized. Everything was a total wreck. While the firemen were pouring water on the flames there was a roaring furnace beneath which could not be reached. But the firemen clung to their places and fought every inch of the way until the fire was under control. After two hours of hard work five charred human bodies were found burned beyond recognition. Two were in the attitude of prayer. They must have been awakened by the fire but could not escape. They were caught like rats in a trap.

Cause of the Disaster. A few minutes before 3 a. m. a boilforce. One gang of eight men was at work in the tunnel beneath the lake and two more gangs were asleep in the crib at the time. As soon as the explosion occurred one of the gangs above the lake started down the elevator to get the gang underneath out, but while on the way down the power operating the elevator gave out and

they were cut off with their comrades.

In a few minutes the remainder of the party in the crib discovered that their position was extremely critical. About 21 men and one woman were hemmed in by the burning crib, which was of wood, and was filled with inflammable material. Too terrified to dress, they were forced back step by step to the water's edge by the advancing fire. Smoke enveloped them, and their only hope seemed the water of the lake. They were without hoats and three miles from shore and had no hope of aid reaching them. Soon the flames forced them to the water, and gathering any piece of wreckage possible, jumped into the lake. There was not even a ledge around the crib for the imperiled people to cling to, and they were floating near the burning structure, screaming for help when the tug Sprankle reached the scene. The tug was in the harbor when the fire was first seen, and though it went at full speed to the burning structure, the building had burned to the water's level when it reached there.

Captain H. Thorne of the tug J. R. Sprankle stated that he found the lake in the vicinity of the fire swarming with men. They were all naked and were swimming about in the water almost exhausted. He says that he saw at least one man throw up his hands in despair and sink into a watery grave. Captain Thorne and his crew rescued 18 of the men and brought them to Cleveland.

Daniel Hartman was one of those

brought in on the Sprankle. He said that the first intimation of anything wrong was the terrific explosion which awakened him and the others. "A fearful panic followed," he said, "and many of the men rushed from their beds and threw themselves into the lake. I ran from my bunk and looked around and soon saw that the crib was doomed. The fire spread like lightning and there was hardly any use fighting it. It soon got too warm for me and I jumped into the

AN ARTISTIC SUCCESS.

A Large Audience. Delighted With the Entertainment at Opera House Last Night.

An appreciative audience filled the Washington Opera House last evening, to be entertained by what proved to be one of the most enjoyable occasions which was pumped from the crib to that has taken place in Maysville for

The program was good from beginning to end and opened with a bright overture by Miss Berry and Mr. Bullett, who, quently, however, nine of the men in as always, found warm applause and great appreciation accorded them.

The first soloist was Mrs. Harriet Mitchell who sang in her usual finished style. Her selection, "Lord, We Praise Thee," was certainly well calculated to Ohio. show the excellent capabilities of her jured: John Martina, drowned; Mike voice. She was followed by Miss Murphy, Snyder, drowned; Arthur Hasty, whose recitation of "Buzz-saw Girl" was a drowned; Victor Kaufman, Canton, happy introduction to her audience, it suffocated; five men, names unknown, being a bright, catchy sketch of a talkative maiden, who on this occasion had a whole houseful of interested listeners. Miss Murphy is an artist of no ordinary after the flames broke out, but when ability and during the course of the evening gave a number of selections, anyone a seething mass of flames and all of which showed her thoroughly skilled hope of saving it was abandoned. Men in pitching her voice to suit the characcould be distinguished swimming or ter to be portrayed and bringing out the real spirit of the sketch. She was recalled time and again.

Mr. G. Morgan Stricklett had already won the Maysville public when he appeared here several weeks since, and his falling into the lake. The tugs cir- return last evening was the cecasion of a cled around the burning crib, picking cordial welcome and spontaneous apup men from the water, and mean-plause. He showed his appreciation by time playing heavy streams upon the responding most generously to his many tainly above criticism.

> Miss Charles' rich contralto voice and happy stage presence have already made last evening she scored another triumph.

After her appearance there was a brief Wadsworth. She sang without leaving the stage three numbers from Carmen, and when one considers the character of this music and the frequent change of time it calls for, it seems a most unusual thing for so young an artist to have attempted and to have been rewarded with the success she met with. Her audience were in sympathy with her and in recaller in the crib exploded with terrific ing her, as they did, were rewarded by hearing "My Old Kentucky Home," which Kentuckians never tire of, and which they always greet with enthusiasm.

Other numbers equally good from the artists who had gone before completed the evening's entertainment and every one went home feeling glad that they had

BOTH TIRED OF STRIFE

Rumors of a Settlement of the Steel Strike Again Revived.

THE DAY RICH IN DEVELOPMENTS.

Strikers and the Trust Each Score Heavily, Several Mills Being Closed and Opened-McKeesport Tied Up Tight.

Pittsburg, Aug. 14.-Rumors of a settlement of the steel strike are again being revived, but confirmation of them at any source is impossible. It is related circumstantially that the Amalgamated knows it cannot win, that the United States Steel corporation fears the loss of both skilled men and orders to the independent mills and that they are close to terms which would be satisfactory to both.

Pittsburg, Aug. 14.—Both sides made material gains in the great strike being waged against the United States Steel corporation by the Amalgamated association. The remaining force at the plant of the National tube works at McKeesport joined the strikers and that great plant is now practically silent. The strikers also made some gains among the men at the lower union mill of the Carnegie company in Pittsburg, but there is a direct conflict in the claims made by either side as to the exact condition of that plant. The strikers say they will force it to close down, while the managers insist they have not been hurt and that the plant will be kept moving. The material gains of the manufacturers were at the Painters mill in this city and the Crescent mill of the American Tin Plate company.

At the former a surprise was sprung on the strikers and two mills, one with a crew of old employes, who struck on first order, were going before it was known that any such move was contemplated. It is said that another crew will be put on shortly and that the managers assert that many of their old men will come back. There was no disorder at the mill and it is said that the old employes will not do picket duty for fear of being b'acklisted in the future. The American Tin Plate officials say they have half the mills in the Crescent plant moving As the result of the attempt by the American Tin Plate company to start its Crescent works at Cleveland in 24 hours half the mills were put in successful operation, claim the officials, manned largely by former workmen who have seceded from the Amalgamated association, stating their belief that the officers of the association had done wrong in violating their written agreement with the company. The start at Cleveland having succeeded, the company will in a short time make a similar move else-

The situation can be generally summarized as follows: In round numbers the last strike order by President Shaffer has been obeyed by 20,000 men, and the total number of men who struck or were rendered idle by all three orders is now placed at 65,-000 men. The manufacturers continue to hold their ground at Chicago, Joliet, Bayview, Youngstown, Columbus, the Kiskiminetas Valley and in all of the Carnegie plants except the lower union mill in Pittsburg.

The steel manager also count the refusal of the furnace men of the Mahoning and Shanango valleys to strike as a victory. The steel corporation also scored in reopening two mills of the Painter plant at Pittsburg and in forcing the opening of the Crescent tin plant at Cleveland. The strikers scored heavily at McKeesport when nearly 3,000 men and boys employed by the National Tube company joined forces with the strikers and tied the plant up. They claim to have further extended their organization among the men of the Carnegie mills in this city and say that before the end of the week they will have the works stopped. They also expect to completely close down everything in the Wheeling district.

Strikers Displaced.

Chicago, Aug. 14.-Amid the hooting and jeering of a hundred or more union pickets stationed around the Frazer and Chalmers plant, 29 nonunion men were safely landed inside the works of that company to take the places of the union men out on strike. The men were brought from the east and were conveyed to their destination in two large busses under the escort of a squad of police. A crowd of strikers was assembled around the plant, but beyond jeering they made no demonstrations.

The Investment Company has taken its place as a permanent institution, and the prejudices that obstructed its early growth are disapppearing in the light of experience in its workings. For many months the people of Mason County have been sending over \$1,000 a month to be invested in companies at Lexington and other places. Now that we have a company at home whose plan is the latest and most approved, and whose managers are personally known to you as men of standing and integrity, why not put your investment with them? Patronize your home institution and your city and county will develop.

There is still a lingering prejudice in the minds of many people against the investment business. This arises largely from lack of information as to the real principles upon which the business is founded.

Our older citizens remember when the first building association was started in Maysville. There was a great deal of opposition to it, but it lived down the prejudice and was the forerunner of the three prosperous institutions of that kind in Maysville. The building association depends for its success entirely upon co-operation.

Life insurance was a rarity in Maysville in the preceding generation, but now it is difficult to find a man entirely uninsured, who is healthy enough to stand a medical examin-

Life insurance is run upon precisely the same principles as an investment company, but pays the profits to the dead man's estate. Our plan is open to the sick and feeble to whom life insurance is barred, as well as to the healthy and strong. Don't let prejudice stand in your way because the business is unfamiliar to you, but investigate for yourself, and you, like others, will be convinced. Call at our office or write to the

just as the town clock was striking fifteen minutes past 3. Everything was still as death. There was a mighty uproar in the tin department, when a tin cup raised shrieking, trembling and exclaiming that their kind was to be sold 3 for 5c. Boastingly the table oilcloth was heard in a loud voice saying. I am 1½ yards wide and thirty-six inches long and of the finest grade and I am to be sold for only 15c. Carpet tacks were next heard from. There are 500 of us and our points are of sharpened steel and our heads can be hammered for only 5c. Rubber collars were heard from next, in a low voice saying. "You can launder me in a bowl with soap and water and I will go around your rubber neck for only 25 cents." Silver tea spoons were heard in a silver tongue. "There are only six of us, just one half dozen; we shine and shine beautiful to behold. We are guaranteed to last a lifetime. We are to be sacrificed for only 50c. There was a great uproar heard in rug, straw matting, china, glass, hosiery, linen and gents furnishing goods department.

This man tir-toed away silently, but knowingly, that on account of space we could not tell you what they had to say, but the goods talk for themselves at the 5 and 10 cent store, 45 West Second St., Maysville, Ky.

"It is a Great Sale!" * * *

Such is the general verdict expressed by the thousands of fortunate people that have visited the Bee Hive in the last few days. Don't put of until to-morrow what you can buy to-day is a good maxim to follow during the great mid-summer sale now going on. Every day brings new bargains-some lots are large and some are small. Be on the safe side and call every day. All summer goods must go and ridiculously low prices shall be the propeller that will drive them with tremendous speed.

DROUTH BROKEN.

This Section Blessed With a Fine Rain Last Night.

The long drouth in this section is ended at last. A fine rain fell last night, and it seems to have been a general one.

The sky was overcast with heavy clouds nearly all day Wednesday, and there was a light sprinkle shortly after 1 p. m. But it was nearly 5 o'clock in the afternoon before old Jupiter Pluvius got down to business. The rain fell steadily all through the night and up to 8 o'clock this morning. At 7 a. m. the precipitation amounted to .64 of an inch.
